

Arabic Logic Commission of the DLMPST

Activity plan for 2022

Arabic Logic
منطق

Our chief plan for 2022 is to make the website more useful. At present there is no place one can look for a list of people with an interest in Arabic Logic, or an indication of their range of interests, or perhaps a note of their recent publications in the field. We believe that the Commission is well placed to fill this gap. It will involve some sweat and maybe some tears, but (at least at this stage) there is no need for us to request any financial help.

Saloua Chatti, 21 December 2021
